

EED Tab: 1: Electronic Export Declarations with Destination Country MA - Morocco and Commodities with Canadian Origin and the following HS Codes for Grains and Products:

[illegible]

2: Each row represents a commodity reported in a declaration and is uniquely identified by columns B to E.  
3: Each declaration is uniquely identified by column B. A declaration can have multiple commodities reported and therefore can occupy multiple rows. There are 131 unique declarations identified in the system and extracted.  
4: Instead of the CAED Authorization ID, a EED\_NUMBER, which is a serialized number arbitrarily assigned to each unique manifest extracted for this tasking, is shown.  
5: Declarations via Form B13A, Summary Reporting Program and oral reporting are not included.

Manifest Tab: 1: Marine Cargo Manifests with departure port CAMTR - Montreal and arrival port MAPTM - Tanger Med and Final Destination MA - Morocco. There were no manifests from Montreal to the port of Casablanca.

2: Each row represents a commodity reported in a manifest and is uniquely identified by columns B to C.

3: Each manifest is uniquely identified by column B. A manifest can have multiple commodities reported and therefore can occupy multiple rows. There are 554 unique manifests identified in the system and extracted.

4: Instead of the Cargo Control Number, a MANIFEST\_NUMBER, which is a serial number arbitrarily assigned to each unique manifest extracted for this tasking, is shown.
